LANGUAGE : English – High-Level / Hebrow- High-Level / Arabic – Native

SUMMARY

I have completed two years of practical training in software engineering. I possess strong communication skills, the ability to work under stress, and am adept at multitasking. I am a highly motivated individual who is hardworking, responsible, and maintains a positive attitude toward all tasks. With practical experience in practical software engineering, I am flexible and open to constructive criticism as a means for personal growth. I am eager to leverage my talents and experience in a challenging position that offers opportunities for advancement.
